

2PARKUP PREMIUM 2 TIER GAS ASSISTED BIKE RACK

The Klaver 2ParkUp two tier bike rack is an extremely well engineered premium bike rack. FietsParKeur certified, tested to 20,000 movements and with a 10 year manufacturers warranty, this is an industry leading product that has a proven track record of over 50,000 spaces installed across Europe, providing both ease of use and robust construction.

The gas assisted upper level provides a smooth, secure mechanism, with a low lifting height, and a powerful gas strut to lift the bicycle with minimal effort required.

INDOOR OR OUTDOOR

The galvanised frame is suitable for both indoor and outdoor use and can optionally be powder coated to a range of RAL colours to compliment its surroundings.

If you are looking to situate the two tier bike rack outdoors, we provide a range of shelters, which are designed to house the two tier bike rack perfectly.

OPTIONS

- The 2ParkUp can be provided in either single side or double side configurations
- 375 or 400mm centers
- Powder coated finish available in a range of RAL colours
- E-bike charging socket arm

SECURITY

The 2ParkUp two tier bike rack comes with multiple hoops for locking the bike to.

DESIGN & INSTALLATION

Two tier bike racks are usually implemented to provide high density bicycle storage for larger amounts of bikes.

We can help you with your layout design to maximise the space that you have available. We also have experienced installation teams providing a seamless process from Design through to Supply and Install. Get in touch with our team today to discuss your requirements.
